2022
Home Show Recap

Happy Spring!

Amber Irving ~ Vice President
Membership Committee Chair

Happy Spring and bring on Summer...I know in our growing industry we look forward to longer days of day light and nicer weather. We have had some great events the past two months including a great 2022 Home Show; we had guest speaker Carl Harris from NAHB join us for the Social updating us on current hot topics. Crazy to believe we are already planning the 2023 Home Show; the committee will meet again in June!

We have a brand new event May 6th at Rapid City High School called Pizza and Power tools; this event is open to all members to come down and meet with the high school students and talk to them about what job opportunities are available right out of high school or maybe even a summer job. So call the office today to reserve your spot from 11am-3pm on May 6th. Come find your next employee!!

We have lots of events coming up so be sure to mark your calendars:
May 24th Social Builder Appreciation and Scholarship Awards
June 21st Social

Rapid City, SD 57702

A new **future** to build.

Excitement isn't the only thing we're building around here! Midco® is planning for the future – and delivering fiber-optic services is on our mind. Someday soon, we'll be even closer to providing fiber internet to homes and businesses in the Black Hills area.

As a builder, contractor, homeowner and/or future Midco customer, it's important to know that changing to fiber delivery comes with a few technical details:

- We still encourage coax or Cat 5/6 cabling in the home and stubbing it out of the home at a power meter location.
- Current low voltage wiring practices do not include a continuous duct running from the outside power meter location to the inside utility room demark location. Moving forward, fiber services will require a duct to run fiber into a home, providing a common installation location and equipment distribution point.

We need your help to spread the word about new fiber delivery best practices to new homeowners. Including this duct in the building and planning process will allow local service providers, like Midco, to pull fiber into the utility room – ultimately providing homeowners with the option of faster connectivity and entertainment.

Looking for more info? Reach out to your local Field Service Manager, Craig Fuhrmann at **605.209.7019** or **Craig.Fuhrmann@Midco.com**.

Thank you!

Midco

2022

Home Show Recap

The 48th Annual Home Show was a success! The new layout of Barnett Field House plus the addition of the Summit was much needed for continued growth for our Home show. We had good attendance – 5,100 attendees, with 400 booths sold.

Many thanks to the business' that included the Home Show in their advertising beforehand. Getting the word out as much as possible helped with attendees to the Show, which benefits everyone. There were many great leads generated and we hope this results in increased business for all of you.

Home Show committee meetings will continue throughout the year to ensure a solid plan for the 2023 Home Show. That being that said, we are also looking for new committee members and fresh ideas to ensure the Home Show continues to be successful.

A big thank you to all the volunteers for their many hours spent staffing the Home Show. We could not have done it without you!

On behalf of the Committee, thanks again for a super Home Show and hope you have a pleasant, enjoyable Spring.

Thank You

Shane Regelin

2022 BHHBA Home Show Committee Chairman
Heartland Pella

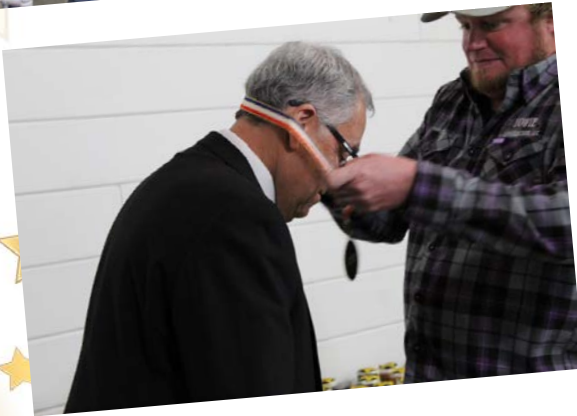

Thank You to everyone who participated in the 2022 BHHBA Home Show.

KNECHT *Home Center*

your Hometown Lumber Yard Since 1928

... a Mead Lumber Company

Knecht Home Center is proud to work with homeowners, builders, manufacturers, and architects to design homes that are not only energy efficient but utilize renewable, natural resources; lumber being one of them. Products such as insulation and drywall have elements of recycled materials in the making of the product. We believe strongly that utilizing sustainable, renewable materials is the responsible and right thing to do for future generations to come.
